

Notice of Intent (NOI) for Coverage under a National Pollutant Discharge Elimination System (NPDES) Municipal Stormwater General Permit

Introduction

After February 15, 2006, this form must be used by all entities seeking coverage under one or more of the following municipal separate storm sewer permits:

- **Phase I Permit** – “National Pollutant Discharge Elimination System and State Waste Discharge General Permit for Discharges from Large and Medium Municipal Separate Storm Sewer Systems”
- **Phase II Permit for Western Washington** – “National Pollutant Discharge Elimination System and State Waste Discharge General Permit for Discharges from Small Municipal Separate Storm Sewers in Western Washington”
- **Phase II Permit for Eastern Washington** – “National Pollutant Discharge Elimination System and State Waste Discharge General Permit for Discharges from Small Municipal Separate Storm Sewers in Eastern Washington”

The Department of Ecology (Ecology) will use the information provided to determine if coverage under one or more of the above municipal stormwater general permits is required and/or appropriate. Please answer all questions accurately and completely. If a question does not apply, answer NA to that question. See instructions at the back of the form for more information.

Municipal separate storm sewer systems (MS4s) seeking permit coverage must complete this application and return it to Ecology. You may print this form and complete it by hand, or download the form from Ecology’s website and fill it out electronically. The form is available at:
www.ecy.wa.gov/programs/wq/stormwater/municipal/secondary.html.

An authorized signature is needed to complete the application. Please reference supporting documents in the text and attach as necessary.

Mail completed NOI to:

**Department of Ecology
Water Quality Program
Municipal Stormwater Permits
P.O. Box 47696
Olympia, WA 98504-7696**

Ecology will send each applicant an acknowledgment of receipt. If you have questions about this application, please contact the appropriate Ecology employee listed in the instructions at the end of this form, or call Ecology’s Water Quality Program at (360) 407-6600.

Part 1 - Owner/Operator Information

A. Applicant Information			B. Responsible Official or Representative		
Name of city, county, or special district:			Name		
			Title		
			Phone		
			Email		
Mailing Address			Mailing Address		
PO Box (Optional)			PO Box (Optional)		
City	State	Zip	City	State	Zip

C. Billing Address, if different			D. Contact Person		
Name			Name		
Mailing Address			Title		
PO Box (Optional)			Phone No. Business Ext.		
City	State	Zip	Email		
			Fax No. (Optional)		
E. Ownership Status (check appropriate box)					
<input type="checkbox"/> City or Town <input type="checkbox"/> County <input type="checkbox"/> Federal <input type="checkbox"/> Tribal					
Special District: <input type="checkbox"/> Diking/drainage district <input type="checkbox"/> Port <input type="checkbox"/> Flood control district <input type="checkbox"/> University <input type="checkbox"/> Public school district <input type="checkbox"/> Park district <input type="checkbox"/> State agency (give name) <input type="checkbox"/> Other (please describe)					

Part 2 – Permit(s) under which the applicant is requesting coverage (see instructions)

- ☐ Phase I Municipal Stormwater Permit
- ☐ Phase II Municipal Stormwater Permit for Western Washington
- ☐ Phase II Municipal Stormwater Permit for Eastern Washington

Part 3 – Population served by the MS4

Estimated population (resident and commuter) served by the MS4 within the geographic area(s) covered by the permits: _____

Part 4 – Map(s)

A. Is part of the MS4 located on tribal lands (within a reservation or on land held in trust for a tribe)? For the Puyallup reservation only, check “yes” if MS4 is located on trust lands and “no” if any part of the MS4 is located on fee lands. ☐ Yes ☐ No

B. For special purpose districts only, attach a map or maps delineating the geographic area served by the MS4. ☐ Attach map(s) to this form
☐ Not applicable

Part 5 – Co-Permittee information

Complete this part of the NOI only if you are co-applying with another entity to meet the requirements of the permit. Permittees that co-apply are responsible for meeting permit conditions related to their discharge(s).

If you are co-applying with another entity or entities please include as an **attachment to this NOI a summary of the permit obligations** that will be carried out jointly among co-applicants. The summary must identify the other co-applicant(s) and must be signed by the other co-applicant(s).

- ☐ Attach a summary of joint permit obligations
- ☐ Summary is signed by all co-applicants
- ☐ Not Applicable

Part 6 - Relying on another entity to satisfy permit requirement(s)

Complete this part of the NOI only if you are relying on another entity to satisfy one or more of the requirements of the permit. Permittees that rely on another entity to satisfy one or more of their permit obligations remain responsible for permit compliance if the other entity fails to implement the permit conditions. Permittees may rely on another entity provided the entity satisfies all of the requirements it agrees to cover (see 40 CFR 122.35(a)). The entities must meet the following requirement:

1. The other entity agrees to take on responsibility for implementation of the permit requirement(s),

AND

2. The other entity implements the permit requirements.

If you are relying on another entity or entities to satisfy one or more of the permit obligations, please include as an **attachment to this NOI a summary of the permit obligations** that will be carried out by another entity. The summary must identify the other entity or entities and must be signed by the other entity or entities.

- ☐ Attach summary of permit obligations carried out by another entity
- ☐ Summary is signed by all other entities
- ☐ Not Applicable

Part 7 – Public Notice

A public notice must be published at least *once each week for two consecutive weeks* in a *single* newspaper of general circulation in the county or city in which the district or entity is located. See the NOI instructions for the public notice language requirements. Permit coverage will not be granted sooner than **31 days** after the date of the second public notice.

Submit the NOI and public notice to Ecology before the date of the first public notice. A copy of the NOI and public notice may be faxed to (360) 407-6426.

Name of the newspaper that will publish the public notices:

Provide the **exact** dates (mm/dd/yy) that the first and second public notices will appear in the newspaper:

Date of the first notice ____/____/____

Date of second notice ____/____/____

Part 8 - Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. The information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Print or type name of responsible official or representative	Title

INSTRUCTIONS

These instructions will help you prepare an application, referred to as a Notice of Intent (NOI), for coverage under a National Pollutant Discharge Elimination System (NPDES) General Permit and State Waste Discharge Permit for stormwater discharges associated with municipal separate storm sewers in Washington State.

Questions?

If you have questions, please contact the Ecology employee who manages the permit in the county or counties in which your facility or district is located:

- Skagit, and Whatcom Counties:
contact Steve Hood at (360) 738-6254
- King, Kitsap, and Snohomish Counties:
contact Ed Abassi at (425) 649-7227
- Clark, Cowlitz, Clallam, Grays Harbor, Pierce, and Thurston Counties:
contact Garin Schrieve at (360) 407-6272
- Benton, Chelan, Kittitas, Douglas, and Yakima Counties:
contact Terry Wittmeier at (509) 574-3991
- Asotin, Franklin, Grant, Spokane, Walla Walla, and Whitman Counties:
contact Dave Duncan at (509) 329-3554

Or, call Ecology's Water Quality Program office at (360) 407-6600 and the receptionist will direct you to another staff member who can assist you.

Who must apply?

Federal and state law requires all operators of regulated municipal separate storm sewers systems (MS4s) to apply for and obtain coverage under this permit, or to be permitted under a separate individual permit, unless waived or exempted in accordance with conditions described below.

What is an MS4?

A municipal separate storm sewer system (MS4) is a conveyance or system of conveyances including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels and/or storm drains which is:

- a. Owned or operated by a city, town, county, district, association, or other public body created pursuant to state law having jurisdiction over disposal of sewage, industrial wastes, stormwater, or other wastes, including special districts under state law such as a sewer districts, flood control districts or drainage districts, or similar entity.
- b. Designed or used for collecting or conveying stormwater.
- c. Not a combined sewer system.
- d. Not part of a publicly owned treatment works (POTW) (see 40 CFR 122.2).

MS4s also include systems similar to separate storm sewer systems in municipalities such as: universities, prison complexes, highways and other thoroughfares, and flood control districts.

Storm sewers in very discrete areas such as individual buildings do not require coverage under this permit. Storm drain systems operated by non-governmental, private entities such as: individual buildings; private schools, colleges, and universities; and industrial and commercial entities **are not** subject to these permits.

Who needs a permit?

1. A regulated MS4 is a municipal separate storm sewer system that:
 - Is located within, or partially within, the unincorporated areas of Clark, King, Pierce or Snohomish counties; or
 - Is located within, or partially within, the cities of Seattle or Tacoma; or
 - Is located within the other areas defined in the permits. See list of cities and counties in Part 2 of the line-by-line instructions or Ecology's maps of permit coverage www.ecy.wa.gov/programs/wq/stormwater/phase_2/maps.html for more information on these locations; or
 - Is designated by Ecology
- AND
- Discharges stormwater from the MS4 to a surface water of Washington State; and
 - Is not eligible for a waiver or exemption.

2. All operators of municipal separate storm sewers which meet the criteria listed above must obtain coverage under this permit. Operators of municipal separate storm sewers may also include, but are not limited to: public flood control districts, public diking, and drainage districts, public schools including universities, and correctional facilities that own or operate a MS4 serving non-agricultural land uses.

Operators of municipal separate storm sewers who are not cities, towns or counties must be able, to the extent allowable under state and federal law, to demonstrate that they can operate pursuant to legal authority which authorizes or enables the entity to control discharges to and from municipal separate storm sewers owned or operated by the entity. This legal authority, which may be a combination of statutes, ordinances, permits, contracts, orders, interagency agreements, or similar means, shall include the ability to:

- a. Control the contribution of pollutants to municipal separate storm sewers owned or operated by the Secondary Permittee from stormwater discharges associated with industrial activity, and control the quality of stormwater discharged from sites of industrial activity into the Secondary Permittee's municipal separate storm sewer;
- b. Prohibit illicit discharges to the municipal separate storm sewer owned or operated by the Secondary Permittee;
- c. Control the discharge of spills and the dumping or disposal of materials other than stormwater into the municipal separate storm sewer owned or operated by the Secondary Permittee;
- d. Control through interagency agreements among co-applicants, the contribution of pollutants from one portion of the MS4 to another portion of the MS4;
- e. Require compliance with conditions in ordinances, permits, contracts, or orders; and,

- f. Within the limitations of state law, carry out inspection, surveillance, and monitoring procedures necessary to determine compliance and non-compliance with permit conditions, including the prohibition on illicit discharges to the MS4.
3. If Ecology determines the MS4 is a significant source of pollution to surface waters of the state, Ecology may require any other operators of small municipal separate storm sewer systems to obtain permit coverage. Ecology will notify the affected MS4 that permit coverage is required by issuing an administrative order (see RCW 90.48).

Who does not need to apply?

The Washington State Department of Transportation (WSDOT) does not need to seek coverage under these permits. WSDOT will obtain coverage under a separate permit.

State and federal laws do not require a regulated MS4 to obtain permit coverage, if either of the following conditions applies:

1. The MS4 is operated by:
 - The federal government on military bases or other federal lands; or by the United States Military, the Bureau of Land Management, the United States Park Service, or other federal agencies; or
 - Federally recognized tribes located within tribal lands; or
2. The portions of the small MS4 located within the census defined urban area(s) serve a total population of less than 1000 people** and **all** the conditions below apply:
 - The small MS4 is not contributing substantially to the pollutant loadings of a physically interconnected MS4 that is regulated by the NPDES stormwater program.
 - The discharge of pollutants from the small MS4 has not been identified as a cause of impairment of any water body to which the MS4 discharges.
 - In areas where an EPA approved Total Maximum Daily Load (TMDL), or water quality improvement plan for impaired waters, has been completed, stormwater controls on the MS4 have not been identified as being necessary.

***In determining the total population served, include both resident and commuter populations as follows:*

- *For publicly operated school complexes including universities and colleges, the total population served includes the sum of the average annual student enrollment plus staff.*
- *For flood control, diking, and drainage districts, the total population served includes residential population and any non-residents regularly employed in the areas served by the small MS4.*

When to apply

Submit the NOI to Ecology on or before the date of the first public notice required in part 5 of this NOI. Ecology must have the permit application during the public comment period in order to provide the public access to the applications as required by state law (WAC 173-226-130(5)).

Ecology cannot grant permit coverage until 31 days after the date of the second public notice.

Upon receipt of a complete NOI, Ecology will notify the applicant by mail of confirmation of coverage under the permit. The confirmation will be mailed on the 31st day after the second public notice date (or on the first business day following the 31st day after the second public notice date). An NOI is deemed complete only after the 30-day public comment period and all other requested information has been supplied. Permit coverage will begin on the date specified in Ecology's letter of confirmation.

Where to apply

Mail the signed NOI to: Washington Department of Ecology
Water Quality Program
Municipal Stormwater Permits
P.O. Box 47696
Olympia, WA 98504-7696

Fees

There is no application fee. Ecology will bill the applicant(s) for permit fees after permit coverage is issued. Call Bev Poston at (360) 407-6425 or email bpos461@ecy.wa.gov for questions relating to fee.

If you need this information in an alternate format, please call the Program Development Services Section Secretary at 360-407-6401. If you are a person with a speech or hearing impairment, call 711 for relay service or 800-833-6388 for TTY.

Line-by-line Instructions

Part 1 – Owner/Operator information

- A. Applicant information - Fill out the name and mailing address of the city, county, or public entity that will receive coverage under the permit.
- B. Responsible Official or Representative – Fill out the name, address and contact information for the principal executive officer or ranking elected official responsible for signing the application and all reports. See Part 8 for more information.
- C. Billing information - The permit fees will start after coverage is granted. If a separate department or office handles billing, enter the appropriate contact information.
- D. Contact person - Enter the name, title, phone number, and email for the person who will be in charge of developing the stormwater management program and meeting the stormwater permit requirements.
- E. Ownership status - Check the appropriate box indicating the ownership status (e.g., city, county, or special district type)

Part 2 – Permit(s) under which the applicant is requesting coverage

Check the box that corresponds to the permit(s) under which you are applying for coverage. The geographic locations covered by each permit break down as follows:

- **Phase I** – regulates entities within, or partially within the unincorporated areas of Clark, King, Pierce, or Snohomish counties; or the cities of Seattle or Tacoma.
- **Phase II Western Washington** – regulates entities in the census-defined urban areas of Western Washington and some cities with populations over 10,000.

This may include the following cities:

Aberdeen	Camas	Issaquah	Monroe	SeaTac
Algona	Centralia	Kelso	Mountlake	Sedro-Woolley
Anacortes	Clyde Hill	Kenmore	Terrace	Shoreline
Arlington	Covington	Kent	Mount Vernon	Snohomish
Auburn	Des Moines	Kirkland	Mukilteo	Steilacoom
Bainbridge Island	DuPont	Lacey	Newcastle	Sumner
Battle Ground	Duvall	Lake Forest Park	Normandy Park	Tukwila
Bellevue	Edgewood	Lake Stevens	Oak Harbor	Tumwater
Bellingham	Edmonds	Lakewood	Olympia	University Place
Black Diamond	Enumclaw	Longview	Orting	Vancouver
Bonney Lake	Everett	Lynnwood	Pacific	Washougal
Bothell	Federal Way	Maple Valley	Port Orchard	Woodinville
Bremerton	Ferndale	Marysville	Port Angeles	Yarrow Point
Brier	Fife	Medina	Poulsbo	
Buckley	Fircrest	Mercer Island	Puyallup	
Burien	Gig Harbor	Mill Creek	Renton	
Burlington	Granite Falls	Milton	Sammamish	

and may include portions of the following counties:

Cowlitz, Kitsap, Thurston, Skagit, and Whatcom.

- **Phase II Eastern Washington** – regulates entities in the census-defined urban areas of Eastern Washington and some cities with populations over 10,000.

This may include the following cities:

Asotin	Kennewick	Richland	Walla Walla
Clarkston	Millwood	Selah Spokane	Wenatchee
East Wenatchee	Moses Lake	Spokane Valley	West Richland
Ellensburg	Pasco	Sunnyside	Yakima
Liberty Lake	Pullman	Union Gap	

and may include portions of the following counties:

Asotin	Chelan	Franklin	Walla Walla
Benton	Douglas	Spokane	Yakima.

Part 3 – Population served by the MS4

Use a reasonable estimate for population served by the MS4 within the geographic area(s) covered by the permits. The estimate must include both resident and commuter populations. For example, a university may have a resident population of students who live on campus and a commuter population of students and employees who commute to campus.

Part 4 – Map requirements

- A. Is part of the MS4 located on tribal lands (within a reservation or on land held in trust for a tribe)? For the Puyallup reservation only, check “yes” if MS4 is located on trust lands and “no” if any part of the MS4 is located on fee lands. The portion of the MS4 that is located on tribal lands will not be covered under these permits.
- B. For special purpose districts only, attach a map or maps delineating the geographic area served by the MS4.

Part 5 – Co-Permittee information

Complete this part of the NOI only if you are co-applying with another entity to meet the requirements of this permit. Permittees that co-apply are responsible for meeting permit conditions related to their discharge(s).

If you are co-applying with another entity or entities please include as an attachment to this NOI a summary of the permit obligations that will be carried out jointly among co-applicants. The summary must identify the other co-applicant/s and must be signed by the other co-applicant/s.

Part 6 - Relying on another entity to satisfy permit requirement(s)

Complete this part of the NOI only if you are relying on another entity to satisfy one or more of the requirements of the permit. Permittees may rely on another entity provided the entity satisfies all of the requirements it agrees to undertake (see 40 CFR 122.35(a)).

That other entity **must agree** to take responsibility and **implement** the permit requirement(s).

Permittees that rely on another entity to satisfy one or more of their permit obligations remain responsible for permit compliance with those obligations, if the other entity fails to implement the permit conditions.

If you are relying on another entity or entities to satisfy one or more of the permit obligations, please include as an attachment to this NOI a summary of the permit obligations that will be carried out by

another entity. The summary must identify the other entity or entities and must be signed by the other entity or entities.

Part 7 – Public notice

You must publish a public notice in a newspaper of general circulation in the county or city in which the district or entity is located. The following sample public notice contains the required public notice elements.

Sample Public Notice

(Name and address of municipality, district or other public entity) is seeking coverage under (select one of the following):

- **Phase I Permit** – “National Pollutant Discharge Elimination System and State Waste Discharge General Permit for Discharges from Large and Medium Municipal Separate Storm Sewer Systems”
- **Phase II Permit for Western Washington** – “National Pollutant Discharge Elimination System and State Waste Discharge General Permit for Discharges from Small Municipal Separate Storm Sewers in Western Washington”
- **Phase II Permit for Eastern Washington** – “National Pollutant Discharge Elimination System and State Waste Discharge General Permit for Discharges from Small Municipal Separate Storm Sewers in Eastern Washington”

The proposed permit will regulate stormwater discharges from the municipal separate storm sewer system located in *(city, town or county)*. The permit requires *(Name of municipality, district or other public entity)* to develop and implement a stormwater management program that:

1. Reduces the discharge of pollutants to the maximum extent practicable.
2. Protects water quality.
3. Satisfies appropriate requirements of the Clean Water Act.

Any person desiring to present views to the Department of Ecology concerning this application may notify Ecology in writing within 30 days from the last date of publication of this notice.

Submit comments to:

Washington Department of Ecology
Water Quality Program
Municipal Stormwater Permits
P.O. Box 47696
Olympia, WA 98504-7696

Fax: (360) 407-6426

Part 8 - Certification

An authorized person, such as a principal executive officer or ranking elected official must sign the certification statement.

OR

A duly authorized representative of the executive officer (or ranking elected official) may sign the certification, as long as:

1. The signator receives written authorization from the executive officer or ranking elected official. This document must be submitted to Ecology.)
2. The authorization specifies an individual or position that has responsibility for the overall development and implementation of the stormwater management program.
